

The 13th International
Working Conference on
Stored Product Pests

Conference Announcement

The 13th International Working Conference on Stored Product Pests (13th IWCSPP) 2026

Date: 19 – 23 October 2026

Venue: Kampala, Uganda

Hosted by: Ministry of Agriculture Animal Industry and Fisheries, Makerere University, and National Agricultural Research Organization (UGANDA)

Theme: Advancing Research, Technology, and Innovations in Stored Product Protection for Sustainable Food Security

Conference subthemes:

1. Biology, ecology and behaviour of stored products pests and their relationship to pests' management, and climate change
2. Engineering for stored product protection and pest prevention
3. Fumigation, controlled atmospheres, and hermetic storage
4. Integrated pest management systems for stored product pests
5. Microbiology and food safety
6. Quarantine and regulatory aspects of stored product pests and protection
7. Chemicals for stored product pests' control (including resistance)
8. Physical and biological control of stored product pests
9. Gender, policy and governance issues affecting management of stored product pests
10. Postharvest management extension

Please reserve time from 19th – 23rd October 2026 to share, learn and network about the global emerging science, technology, tools, and innovations on the Stored Product Pests. The conference will also provide an opportunity to explore Uganda, the Pearl of Africa's extraordinary beauty gifted by nature.
